Parkland College opened a new student union in the fall of 2014. The bus stop, which was relocated during the construction, is back to the main entrance to the college. Enter the building through this entrance, by the revolving door, and veer to your right, passed the information desk, into a narrow hallway. You’ll turn left and briefly go back outside and then inside again. You’re now in the L-wing. Walk straight through the L-wing, past the Art Gallery, to the entrance of M-wing. Then follow the signs to the Staerkel Planetarium.
